

2cash

THE CRYPTO-COMMERCE COMPANY

FOR IMMEDIATE RELEASE 20 APRIL 2022

The 2cash NFT Community Is Now Live

From delivering unlimited cryptocurrency trading with no fees to releasing simulated token trading, 2cash now with its Crypto-Commerce platform is excited to announce the 2cash NFT Community - the easiest way to buy and sell NFTs.

All 2cash wallet holders will now have access to traditional NFTs, plus some new flavors including NFT'stakes and Mint&Ship NFTs. When you buy NFT'stakes you qualify to participate in an online sweepstakes with a 1 in 10 chance to win, that's about the best sweepstakes odds anywhere. With Mint&Ship NFT's, you can also receive the image printed on a mug or ball cap to show off everywhere.

The best part is 2cash NFT transactions have no gas fees, so not only is the 2cash NFT Community the easiest way to buy and sell NFTs but also the most economical one.
