the vision

2cash is Money for Everyone,

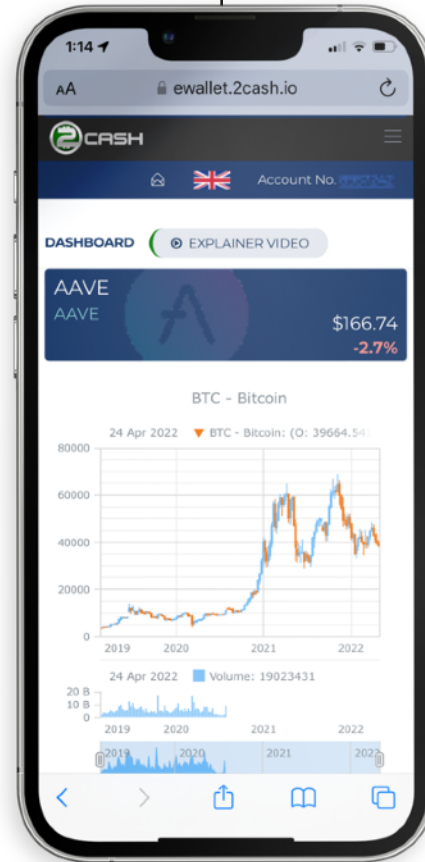

FinTech : Financial Technology describes a business model that provides financial services by making use of software and modern technology.

Blockchain : a digitized, decentralized, public ledger of smart contract transactions.

Cryptocurrency : a digital or virtual currency that uses cryptography for security.

The 2cash FinTech platform incorporates blockchain for the masses where users can easily get involved in cryptocurrency and embrace all its possibilities.

Consider the possibilities and the value proposition offered by 2cash; at the forefront of deploying technology which changes how people transact with each other around the world.

2cash technology

The 2cash technology platform incorporates products and features into an ecosystem for its members to build a better financial future. The 2cash hybrid DeFi (Decentralized Finance) architecture is cloud based and provides the most efficient transactions while maintaining security over SSL and AES-256 encryption.

The 2cash wallet web app runs on desktop or mobile browsers, or members can download the Android and iOS apps. Features include funds deposit and withdrawal, cryptocurrency and tokens trading, remittance and more, plus integration with the 2cash Crypto-Commerce ecosystem including NFT's, online shopping and bill pay.

2cash Debit Card

Link up to three debit cards and fund them from your 2cash wallet account.

2cash BillPay

Pay your bills from anywhere worldwide with your 2cash wallet.

 [billpay.2cash.io]

Crypto-Commerce

What PayPal did for e-commerce, 2cash will expand upon to offer the world's best transaction network where buyers and sellers can save fees plus earn rewards on every transaction.

 [crypto.2cash.io]

Leverage 2packs to purchase 2cash tokens that will be listed on the IEO (Initial Exchange Offer) and used as the preferred currency in the 2cash ecosystem.

distribution

The 2cash distribution model is as unique as its hybrid DeFi technology platform. A transparent referral engine tracks new accounts and links them to the referring member. If that member is subscribed to the AC20 they receive rewards every month from AC20 subscriptions and other subscriptions plus 2cash token purchases and revenue share bonus pools.

The 2cash Ecosystem

There are many organisations today building FinTech apps with blockchain and cryptocurrency, most focused more on technology deployment and management. What sets 2cash apart is the development and deployment of technology to facilitate a platform that provides the tools for members to build a better financial future and share with others to do the same. This creates a sustainable digital currency economy fostering ongoing growth with transactional and subscription monetization.
